

## 2017 Designer Net Price List

Our hand-painted scenic wallpapers are produced as panels in any height up to 12' plus 2' extra for trim. Each panel measures 3' wide after trimming.  
Minimum order: \$2500.00

### To Calculate Price:

#### Step 1: TIER

Measure the height of your wall space. Choose the height of design that is less than your total wall height. For example, on an 80" wall, choose 6' design (6'/72" < 80"). Find the Tier for this height on the chart.

#### Step 2: PRICE CODE

Find the letter code for the design you are interested in from the list of collections (pages 3-5).

#### Step 3: PRICE PER PANEL

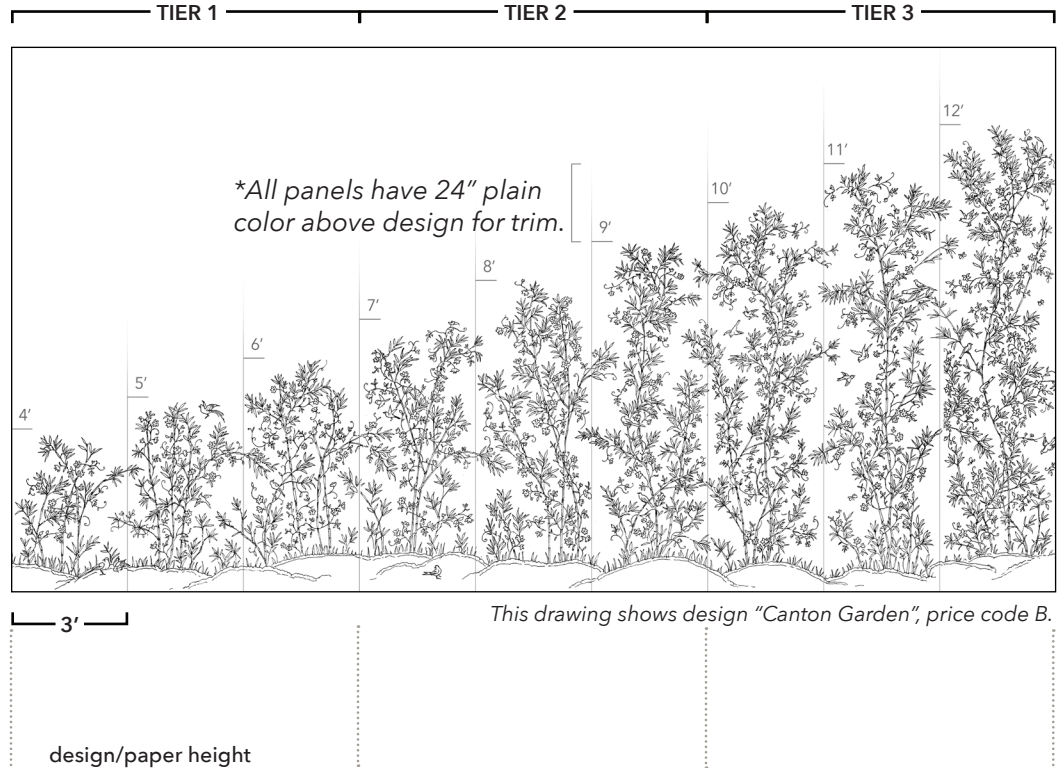

Cross-reference the letter Price Code and the Tier to find the price per 3' wide panel.

#### Step 4: PREMIUM GROUNDS

There is no surcharge for silk, painted paper, or Nonwoven TNW grounds. Cross-reference the type of premium paper and height of the panel to find the surcharge. Add the surcharge to the total price per panel.

#### Step 5: TOTAL

Measure the total width of the wall space where paper will be hung. Divide the total width by 36" (91cm) to find the total number of panels needed. Multiply the number of panels by price per panel. Then add shipping, design diagram, and sample costs for total price.

PRICE PER PANEL	4'/6'	5'/7'	6'/8'	7'/9'	8'/10'	9'/11'	10'/12'	11'/13'	12'/14'
PRICE CODE	TIER 1			TIER 2			TIER 3
