

PAUL MONTGOMERY
LUXURY WALLCOVERINGS

We at Paul Montgomery Studio have been creating handmade wallpapers and custom murals for over 50 years. We specialize in hand painted Chinoiserie and European style panoramic murals.

Our Chinoiserie are characterized by delicate handpainted floral themes painted in centuries old techniques. Our panoramics are painted in a style reminiscent of classic wood-block prints found in historic European and American houses. Each collection contains designs ranging from tropical views to nostalgic old world scenes and ornate gardens. Every design can be customized for the customer. We design everything for use as wallpapers, screens or framed art. We create an endless variation of murals.

Our clientele include hotels, restaurants, clubs, and luxury residences. Our staff of talented artists pay scrupulous attention to detail and are committed to providing the highest level of quality and service with passion and integrity. We stress professionalism, excellence, and versatility.

Based in the Shenandoah Valley, inspired by Virginia's beautiful countryside, we create to enhance the world's interiors with exquisite murals.

THE
CHINOISERIE COLLECTION
PAUL MONTGOMERY STUDIO

Photo by Scalamandré

Beauvais

This is a traditional Chinese silk embroidery artwork titled 'Spring Garden'. The scene is set against a light yellowish-green background. In the upper left, a branch with small white blossoms and pink buds extends across the frame. To its right, a branch with large pink peonies and white flowers is visible. In the center, a blue bird with a red crest is perched on a brown rock. Below the rock, there are various green plants and small white flowers. On the right side, there are more pink peonies and a small blue butterfly. The bottom of the image shows a sandy ground with small green plants and a few more butterflies. The embroidery uses a variety of colors, including pink, white, blue, green, and brown, to create a vibrant and detailed garden scene.

THE
WANDERLUST COLLECTION
BY MICHELLE NUSSBAUMER

Villa Ephrussi

Michelle Nussbaumer

"Two travellers, two artists, one dream..." - Paul Montgomery

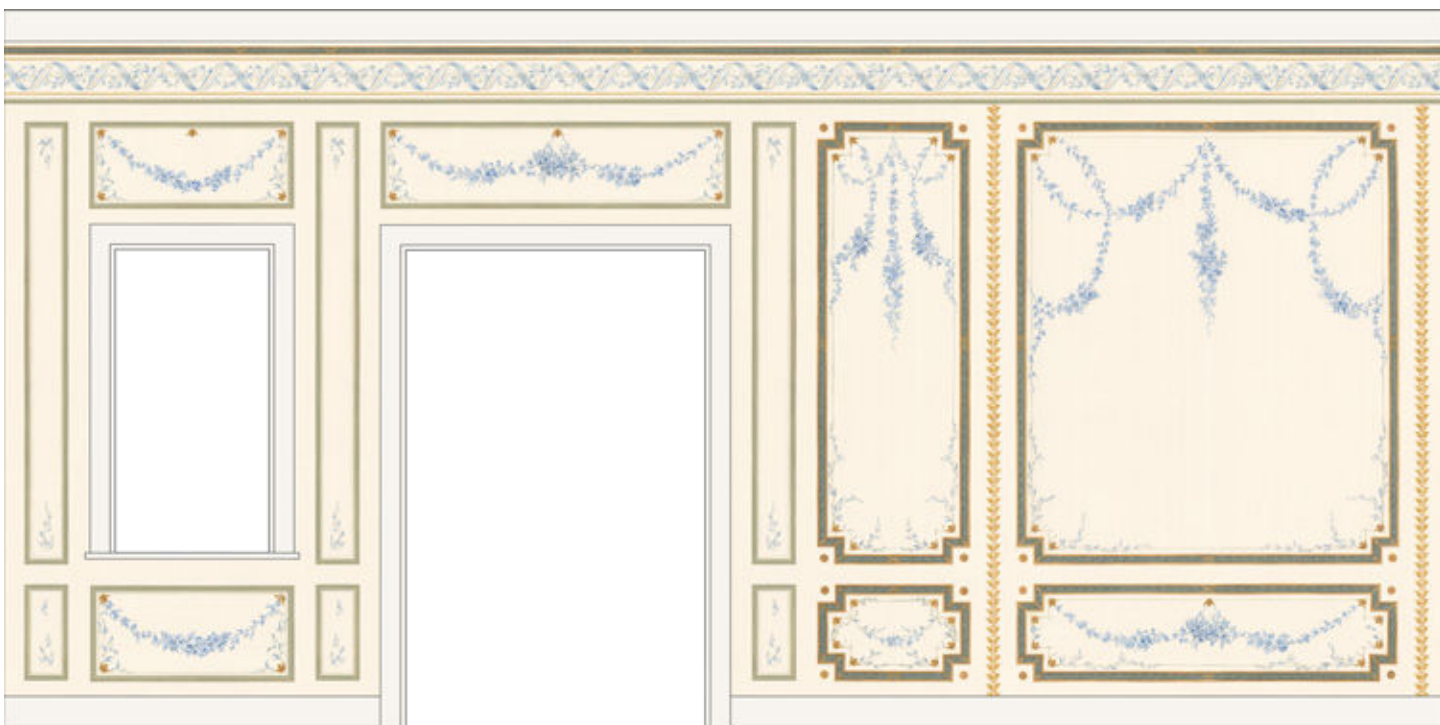

THE WANDERLUST COLLECTION

Pioneering the design world with her eclectic and maximalist style, renowned interior designer Michelle Nussbaumer has collaborated with Paul Montgomery to create Wanderlust, a glamorous and refined wallpaper collection.

Michelle Nussbaumer's unique aesthetic blends perfectly with Paul's expertise in creating hand-made wallpapers and custom murals for over 50 years. The collection is a journey of inspiration from cultures and locales spanning Europe to Asia, combining old-world elegance with beautiful eye-filling patterns whilst showcasing Michelle's expertise and meticulous attention to detail in design.

The Wanderlust designs are modular murals, which are designed using a variety of elements combined to create a collective whole. The pieces and scenes for each design are configured and produced as panels per a layout that we create for your room. Metallics, florals, stripes and all-over patterns are available in a wide range of sophisticated colorways. Some are available on a natural grass cloth, while others emulate textiles and ceramics. These intricate and noble designs are ideal for a layered or maximalist look, suitable for a wide range of interiors. They form a perfect backdrop for rooms that inspire wanderlust and worldly contemplation.

Contact us for more information and for an initial estimate based on your room size and intended look.

ORDERING PROCESS

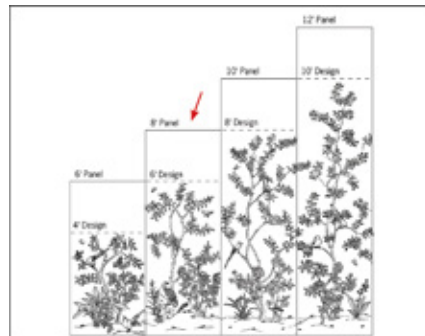

1 MEASURE THE SPACE

Take accurate measurements of the room the mural will be installed in and provide those to us. Be sure to include measurements of wall heights, wall widths, doors, over doors, windows, under windows, and all elements in the room. Providing complete information will ensure a successful project. We accept architectural drawings and elevations, but a simple drawing with marked areas is fine. Some customers take photos and add numbers to those images.

2 DETERMINE PAPER SIZE

One important aspect of ordering a mural is finding the right size paper for your wall. Our wallpapers have a design height and a paper height. The image of each design is created to fit within the vertical height of a wall with an excess of paper above as sky (or blank) paper that is to be trimmed off during installation. Measure your wall and find the nearest height in feet. The paper size will fit above that height with the design height under. For example, if your wall is 9 feet tall, you would order an 8' design on 10' paper.

3 SELECT A DESIGN

Select a design from one of our Collections. Most designs consist of 20 consecutive panels to create a non-repeating mural 60 feet in length. Some designs have 10 panels before repeating, and some only 5. Panels may be ordered in any sequence. You may start with panel number 1, or another starting point, moving from left to right in sequence (e.g. you require 5 panels, select 1-5 or 3-8, etc.).

CUSTOM DESIGN

1 CREATIVE SERVICES

To create a new mural, we can adjust our standard designs or create unique designs based on a suggested theme. The cost is determined by the complexity and size of the design. We can develop any concept into a beautiful wallpaper, whether a repeating pattern, traditional Chinoiserie, or classic panoramic scene.

2 DESIGN DEVELOPMENT

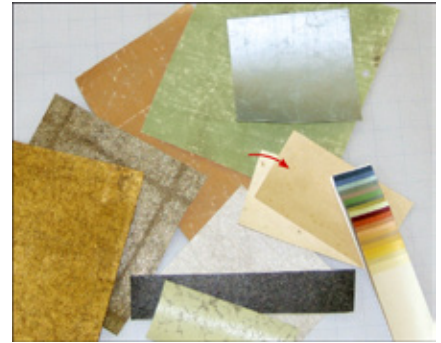

Once we have your specifications, we will research the theme extensively, and create a design that harmonizes your vision into decorative panel segments. Each panel is drawn in full scale and reviewed and adjusted by the artist. This process can take several months.

3 DIAGRAM DEVELOPMENT

It is your responsibility to submit complete room dimensions. Accurate measurements enable us to create a diagram in correct scale. When the completed diagram is presented for approval, it is your responsibility to review all measurements and design elements and mark any necessary corrections.

4 SELECT A GROUND

The foundation of your wallpaper is the paper, known as the “ground”. Selecting your ground paper is one of the most important parts of the process, and we offer a variety of materials and textures to accomplish your vision. We offer paper-backed Silk, hand-pieced Tea Papers, paper-backed Metal Leaf, and Non-Woven Papers. All base papers are available in a variety colors or may be customized to match your theme. We also offer special textural effects, such as grasscloth, sisal, and paper weave, among others.

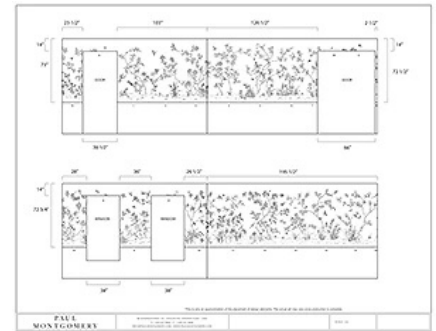

5 ORDER A SAMPLE

We suggest you order a 2' x 3' sample, or “strike off”, for a nominal fee. This will show how your design will look, including the paper, colors and scale of the finished product. If you have chosen custom colors, a sample for your approval is required. Samples are charged per sample ordered. After you approve your sample, we require that you return your sample for color control during production of your order. There is no credit allowance for custom order samples. Samples are usually delivered in 2 to 3 weeks.

6 ROOM DIAGRAM

For rooms with multiple walls, we recommend taking advantage of our Room Diagram Service. With your provided measurements, we will create a page layout that shows all the walls, with design location and placement. This includes panel divisions and numbering which is a valuable asset to installers. This service is like an insurance policy to ensure successful placement and installation.

7 PLACING YOUR ORDER

Send an email or give us a call to let us know your final choices. Specify design name, panel size, number of panels, base paper type and color, panel sequence and custom color requirements. Pricing is based on design type, paper type, special paper effects, and panel sizes. We require a 50% deposit to initiate your order. The balance payment is due prior to shipping.

8 DELIVERY

Paul Montgomery Studio requires 8 to 14 weeks for delivery, depending upon the size of the order. All quoted delivery dates are approximate. Paul Montgomery Studio cannot be held liable for delays in delivery due to circumstances beyond our control. Standard shipping is free in the USA. Please contact us regarding shipment overseas.

BASE PAPERS

We offer a wide variety of base papers and colors for our hand-painted wallpaper panels. By combining color, texture and style on the paper that you choose, you can create a powerful effect that is truly unique. We offer five major base paper types: paper-backed silk, saturated silk colors, pearl silk papers, paper-backed metal leaf, and painted paper grounds. These papers create beautiful backgrounds for our designs or as plain wallcoverings. All of our papers are made from natural, sustainable and renewable materials.

Samples of customized designs with these various paper bases can be ordered for a standard fee, creditable to full orders. Plain base samples can be ordered for a nominal fee, creditable to full orders.

SILK GROUNDS

Our silk base papers are the traditional option and by far the most popular pairing with our many Chinoiserie designs. We offer different styles of colors: metallic, pearlescent, bright and subtle hues. Our colors can be used “as is” or with an added antique effect. Antiqued silks can show a shading effect between panels, called “paneling”, which exemplifies the hand crafted technique.

All of our silks are made from fine grade natural silk and are backed with premium paper. Silks are best used for creating a smooth elegance that compliments the fine details of the hand painted techniques.

SATURATED SILKS

Saturated Silk shares the elegant, natural foundation of standard silk but elevates the aesthetic with a dramatically deeper, richer color palette. The defining advantage of this premium substrate is the intense boldness it brings to hand-painted artwork, making it the ideal choice for creating a vibrant, high-impact statement in contemporary interiors.

PEARL SILKS

Pearl Silk offers a luxurious, iridescent ground that infuses hand-painted designs with a luminous, dynamic quality. Characterized by its subtle, pearlescent shimmer, this sophisticated substrate catches the light beautifully to add an ethereal depth and an unmistakable sense of glamour.

METAL LEAF

Metal Leaf is a luxurious, high-luster option that brings an opulent shimmer to any interior, functioning beautifully as both a striking mural base and a minimalist, plain installation. Available in a sophisticated range of metallic tones, including gold, silver, copper, and champagne, this premium substrate reflects light brilliantly to add dramatic depth and glamour to a space.

PAINTED PAPER

Crafted on a premium non-woven base, Painted Paper offers a clean, versatile ground for custom murals. Its standout advantage is the ability to be flawlessly color-matched to any specific design reference, making it the perfect choice for achieving a seamless, fully coordinated look within a tailored interior. Painted Papers can also have an added antiquing effect.

BUILDING YOUR DREAM

CUSTOM DESIGN AND ARTISTRY

For over 50 years, Paul Montgomery Studio specialized in working with designers around the world to create custom murals for their projects. Whether you're tailoring an existing design, or creating something entirely custom, we will work with you to build a design brief focused on your project alone. Customizations can include color incorporations, special element inclusions, and stylistic harmony with the rest of the project. Paired with our wide range of style options, your mural can be the exact feature you've been envisioning.

CUSTOM DESIGN & ARTISTRY

Our custom wallpaper service offers an opportunity to transform a beautiful design into something entirely personal. Working closely with designers, architects, and private clients, we develop bespoke wallcoverings that respond to the character, architecture, and palette of each individual interior.

ORIGINAL DESIGN

Our strength is creating entirely new compositions from the ground up, translating concepts, references, architectural details, botanical specimens, historical motifs, or a designer's vision into hand-painted wallpaper. Each design is developed specifically for the space, with careful consideration given to scale, rhythm, proportion, color, and overall atmosphere.

ADAPTIONS & MODIFICATIONS

Existing designs can be thoughtfully reimagined to meet the particular requirements of a project. Motifs may be enlarged or reduced, compositions altered, elements added or removed, and colors adjusted to create a more harmonious relationship with the surrounding interior. This allows a favored design to become uniquely suited to its setting while retaining the character of the original artwork.

HAND-PAINTED EMBELISHMENTS

For projects calling for an exceptional level of detail, we offer a range of hand-applied embellishments. Painted gold and metallic effects can introduce subtle luminosity or dramatic highlights, while carefully placed accents can emphasize architectural elements and

bring greater depth to the composition. These finishes are individually applied, allowing the character and variation inherent in hand craftsmanship to remain visible.

DISTRESSING & ANTIQUING

Our surfaces can be carefully aged and distressed to evoke the character of a timeworn textile, historic wall, or treasured antique. Layered washes, softened pigments, patination, and controlled irregularities create depth and visual history, giving new wallpaper the presence of something collected over time.

EMBROIDERED DETAILS

For an especially tactile expression, embroidery can be incorporated into selected designs. Threadwork introduces dimensionality and a subtle interplay of texture and shadow, enriching the painted surface with the qualities of a finely crafted textile. Embroidered details may be used as delicate accents or as an integral part of the overall composition.

Every custom commission is developed with the same attention to craftsmanship, materiality, and artistic integrity as our original collections. The result is a wallcovering made not simply to fill a room, but to belong to it—an original work created in dialogue with the architecture, furnishings, and vision of the project.

THE MuralSource

by PAUL MONTGOMERY

The Mural Source is Paul Montgomery's official brand for printed reproductions of its iconic hand-painted designs.

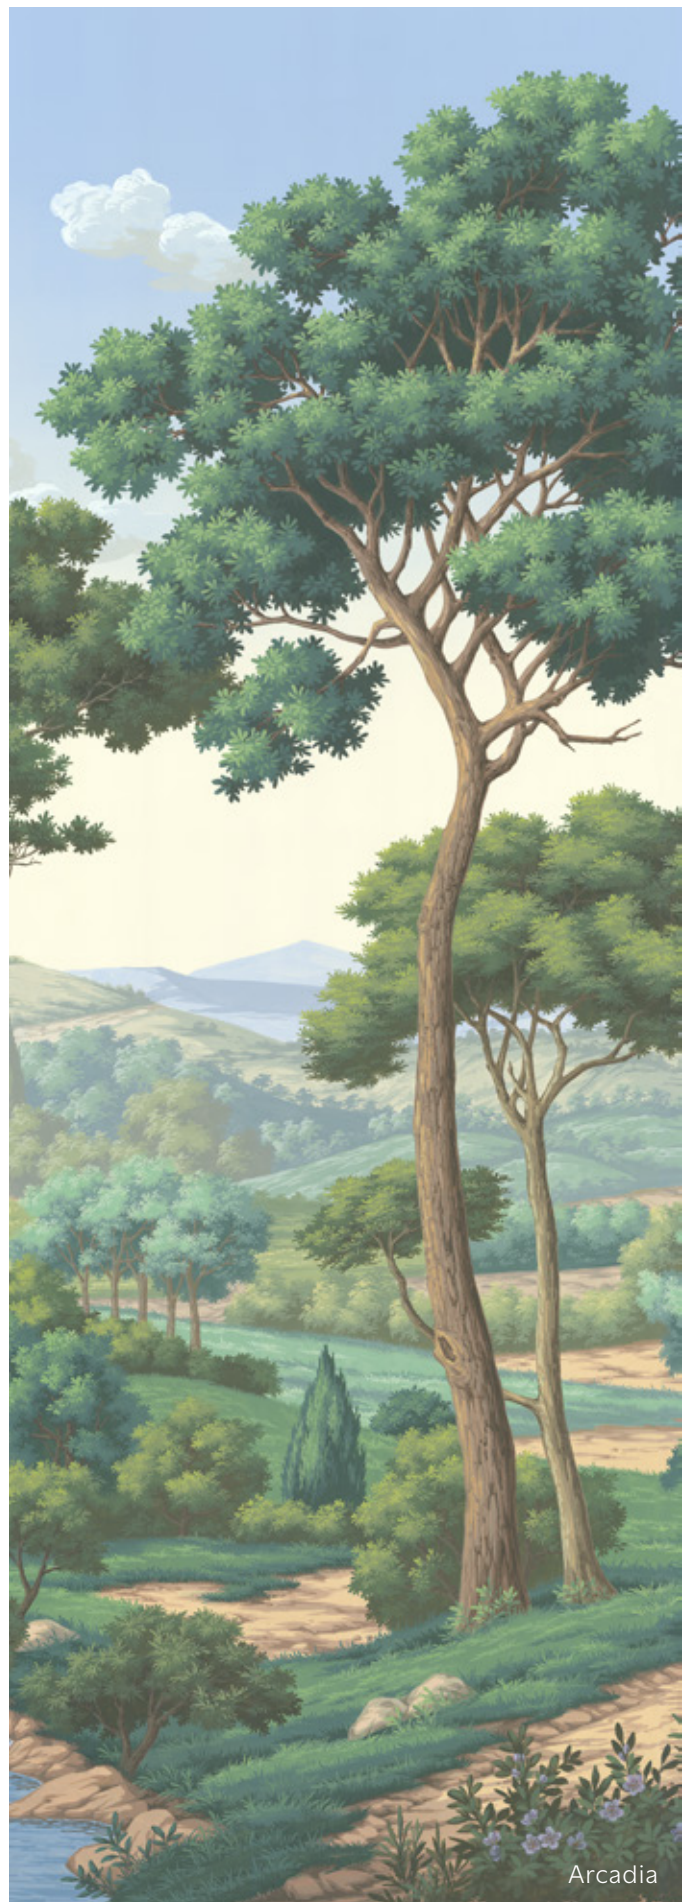

On TheMuralSource.com, there are 300+ murals, repeat patterns, and art prints, each with a variety of color options and material choices. These printed products carry over the philosophy of giving you exactly what you need for your project by being completely made-to-order per your specifications. Contact The Mural Source for more information and planning assistance.

After over 50 years designing and painting fine art murals and wallpapers for the most luxurious interiors, with a worldwide network of highly talented artists, Paul Montgomery has created an exceptional source for interior designers, architects and discerning homeowners for the best quality murals at a tremendous value. These murals are priced at as little as one-third the cost of hand-painted murals, and achieve the same effect to beautify your space.

Each mural is printed to order, using the highest quality technologies and materials onto excellent wallpaper substrates, canvas and other materials. The murals are colored and sized as per the images and information shown and are generally not customizable. However, feel free to contact us regarding your special project, as we do have access to the best designers and artists who can create unique murals for your hospitality or other high-budget project.

There is always a place for a mural. These sophisticated creations are a reflection of your good taste, and will bring satisfaction for many years to come.

Go to TheMuralSource.com to view the mural library.
